Don't miss this great event!
Please pass this along to a friend.

Fleet owners and operators are invited to join us for an educational event concerning compressed natural gas (CNG) and its use as an alternative fuel.

Presentations from industry experts, including a prominent keynote speaker, will cover everything from CNG costs & savings, vehicle performance; fuel supply; vehicle conversions and much more!

Following the event stay for our infamous networking luncheon and ride-&-drive where you can test out natural gas vehicles; tour the race car museum and speak with like minded colleagues.

AGENDA to Follow

This event is presented by the Greater Philadelphia Clean Cities Program in Partnership with PECO Energy
